

#### **Full HD Compact Camera**

## WAT-30HD

### **Operation Manual**

This operation manual covers safety, camera functions, installation and the correct operating procedure for the WAT-30HD. First, we ask you to read this operation manual thoroughly, then install and operate the WAT-30HD as advised. In addition, for future reference, we also advise safekeeping of this

If you do not understand the installation, operation or safety instructions expressed in this manual, please contact the distributor or dealer from where the WAT-30HD was purchased. Not understanding the contents of the operation manual sufficiently may cause damage to the camera, personal belongings and/or result in injury.

### Guide to the Safety Symbols

Symbols used in this operation manual:

"Danger", may lead to a serious accident such as death or injury caused by fire or electric shock

"Warning", may cause severe damage such as a physical

"Caution", may incur injury and cause damage to peripheral objects in the immediate surroundings.

## **Cautions for Safety**

The WAT-30HD is designed to be used safely. If not used safely, it may lead to a physical accident caused by fire and electric shock. Therefore, please keep and read the, "Cautions for safety" below for protection against accidents.

- Do not disassemble and/or modify the WAT-30HD.
- Do not operate the WAT-30HD with wet hands.

Use a stabilized power adaptor designed for DC+12V± 10%, with a current capacity of more than 250mA for the WAT-30HD.

The recommended voltage is DC+12V  $\pm$  10%. Also, we advise the Use of an "inline fuse" power line to protect the camera and peripheral equipment, where applicable

· Do not expose the WAT-30HD to wetness or high moisture conditions.

The WAT-30HD is designed and approved for indoor use only. The WAT-30HD is not water-resistant or waterproof. If the location of the camera is outdoors or in an outdoor like environment, we recommend that you use an outdoor camera housing

- Protect the WAT-30HD from condensation.
- Keep the WAT-30HD dry at all times during storage and
- · Should the camera not work properly, unplug the power immediately. Then check the camera according to the "Problems and Trouble Shooting" section.

· Avoid the striking of hard objects or dropping the WAT-30HD

The WAT-30HD uses high quality electrical parts and precision components and may inadvertently be damaged if not cared for properly.

• Do not connect any power supply directly to the video out terminal of the unit.

Do not connect the WAT-30HD with any monitor using a video/power single transmission terminal. The WAT-30HD utilizes HD-SDI output and is not designed for use with this type of equipment. We also advise you to read the operation manual of the monitor you plan to use before any connections are made

• Do not install the WAT-30HD in a position subject to direct sunlight.

Sunlight shinning directly onto the WAT-30HD lens can cause damage to the sensor.

• Select a stable place for installation of the WAT-30HD. Use an appropriately rated mount durable and strong for all installation position.

- Do not move the WAT-30HD with the cables connected. Before moving the WAT-30HD, always remove the video cable and power cable from the rear of the camera first.
- · Avoid using the WAT-30HD near any strong electro-magnetic field.

Avoid emission sources of electromagnetic waves when the WAT-30HD is installed into main equipment.

### **Problems and Trouble Shooting**

If any of the following problems occur when using the WAT-30HD,

- An optimal picture cannot be obtained, after checking that all the cables and connections are correctly in place.
- Smoke or any unusual odor emerges from the WAT-30HD
- More than the recommended voltage or/and amperage has been applied to the WAT-30HD by mistake.
- More than the recommended voltage or/and amperage has been applied to the WAT-30HD by mistake
- Anything unusual occurring to any equipment connected to the WAT-30HD

Disconnect the camera immediately according to the following procedures:

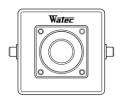

**1) Switch off the main power supply to the camera.** 

②Remove the power and video cables connected to the WAT-30HD.

3 Contact the distributor or dealer from which the WAT-30HD was purchased.

### Contents

Using the contents figures below, check to make sure all parts are present before use

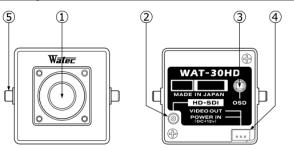

WAT-30HD

Power and Video Cable

## **Description of Parts**

#### **1)LENS FRONT FACE**

The light receiving face of the lens (Dirt. water or oil deposits on the lens will cause an unclear picture on the monitor. Attach the lens cap to protect the lens from contamination and damage.)

#### **2VIDEO OUT**

The terminal for SDI signal output. Use the attached power and video cable for this purpose.

**3JOYSTICK** 

Joystick is for on screen display setups for functions.

#### **4 POWER IN/VIDEO OUT**

The terminal for power input and video signal output. Use the attached power and video cable for this purpose.

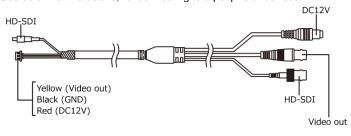

**5 CAMERA MOUNTING FEATURES** 

These mounting features are used to mount the camera.

### **Power Supply**

Use a stabilized power adaptor designed for DC+12V±10%, with a current capacity of more than 250mA.

See below for the details, for connecting to a peripheral devices.

### **Set-up and Operation**

- 1) Ensure that the power to the WAT-30HD and the peripheral equipment is turned off before making any connections.
- 2) Remove the lens cap from the WAT-30HD.
- 3) Connect VIDEO OUT on the WAT-30HD with the monitor.
- 4) Turn on the power to the WAT-30HD, monitor and all other allied equipment. When a picture cannot be obtained on the monitor, or a strong smell of burning is present, or smoke is visible, check and follow the procedure mentioned in the "Problems and Trouble Shooting"
- 5) After following the procedure below and the picture is still out of focus.
- When detailed settings are required or an adequate image is not obtained, then set the functions on the screen by ③Joystick.

### Mounting

The WAT-30HD has two bosses on both sides featuring M2 thread and screws. Use these if the camera is to be mounted to the B001 bracket.

## **Options**

#### Mounting Bracket (B001)

B001 is used for mounting the WAT-30HD to stands and surfaces. The base has a U1/4" thread for mounting on stands, and through holes on both sides

### Mini Stand (MS50)

A convenient stand for the B001. With this stand, the camera can be adjusted to any desired angle.
